MRCOG Part 3

ONLINE PREPARATION COURSE

Overview

MRCOG part 3 Circle
— Dr. Wafaa Ali Belail —

This online preparation course is a comprehensive eight-session course delivered over a period of 6-8 weeks. The course covers all modules of the MRCOG Part 3 exam and ensures candidates are equipped with the essential communication skills.

The course is structured in the highest standards, using evidence-based educational techniques that nourish the candidate's understanding and stimulate their learning.

With special focus on developing the following skills which are the core of every case:

- Excellent communication skills with the patient.
- Systematic counseling of the patient.

In addition to the following skills:

- Showing empathy and sympathy.
- Systematic approach to viva stations and how to interact with the examiner.
- Communication with an angry patient/relative.

To maximize the learning opportunities and create a healthy educational environment, a controlled number of candidates is admitted to each course. Every candidate will have the opportunity to discuss at least one case on each session, the discussion takes place live with the tutor and constructive feedback is provided directly after the case.

We believe in the importance of peer to peer learning in any educational journey, for so, each candidate is admitted to an online group with their peers, where they can have discussions between themselves and/or with the instructor.

Our aim is to build a solid foundation for our candidates to ensure they are on the right track.

The Tutor

MRCOG part 3 Circle
— Dr. Wafaa Ali Belail —

A woman wearing a black hijab and a black suit stands next to a white sign. The sign has the text "ROYAL COLLEGE OF OBSTETRICIANS AND GYNAECOLOGISTS" in black capital letters. Below this, there is a smaller white sign with black text that reads "ROOMS ON REGENT'S PARK". The woman is smiling and looking towards the camera. The background shows a black metal fence and some greenery.

ROYAL COLLEGE OF OBSTETRICIANS
AND GYNAECOLOGISTS
